Cookie Policy

Definition

A cookie is a small file, typically of letters and numbers, downloaded on to a device when the user accesses certain websites. Cookies are then sent back to the originating website on each subsequent visit. Cookies are useful because they allow a website to recognize a user's device without damage it. For more information, click www.allaboutcookies.org

How are Cookies used?

Thai Name Server Co., Ltd. ("ThaiNS") use cookies on thains.co.th and nic.scb ("Website") to improve our service. Some cookies we use are essential for some services to work on our websites; others are used to collect usage information (statistics) so we can make the websites more convenient and useful.

ThaiNS use both session cookies and persistent cookies. A session cookie will expire at the end of the user session, when the web browser is closed. A persistent cookie consists of a text file sent by a web server to a web browser, which will be stored by the browser and remain valid until its set expiry date (unless deleted by the user before the expiry date). The below list details the cookies used in our websites.

COOKIE	DESCRIPTION
Strictly Necessary Cookies	- Remember what domain name the user searches for - Remember the language selection when the user logs-in
Functional Cookies	- Make sure that the Website functions work consistently
Analytical Cookies	- Enhance the performance of the Website - Enhance the user experience - Understand how the user interacts with Website functions

In addition, ThaiNS uses Google Analytics as third party cookies to analyze, measure and evaluate your usage. Google Analytics can detect and send you the information directly. For more website Information, please follow:

- Google Analytics Terms of Service:

  https://www.google.com/analytics/terms/th.html

- Google Privacy Policy:

  https://policies.google.com/privacy?hl=en

Advantages of Cookies

Cookies help us know which parts of the website you visit to improve website usability and response to user requirements, as follows:

- To remember your browser information and settings and help with access to the website

- To help survey the number of website visitors to improve access and speed

- To collect and analyze website visitors' information

- To evaluate the effectiveness of website performance improvement

- To improve the quality of your browsing experience

Disable Cookies

You can disable Cookies via your browser setting and stop future data collection of cookies by inputting Privacy setting. You can learn more details at www.aboutcookies.org or click "HELP" in your browser toolbar.

However, some website sessions require use of cookies. If you disable the cookies, it may cause some functions not to operate smoothly.
